## Master's degree program 025.00.01 "Musical Art"

It is the first Master's degree program in Ukraine offered in English. The program proposes an excellent combination of long-standing educational traditions and a modern innovative approach to mastering musical and performing skills guarantees training of competitive specialists according to the world standards. Master's training conducted in English will undoubtedly contribute to the successful employment of graduates in art institutions around the world.

Future performers have the opportunity to master the instrumental and performing skills under supervision of the greatest specialists including Honored Artists of Ukraine, Honored and People's Artists of Ukraine, Doctors of Philosophy and Doctors of Science, known in Ukraine and abroad. The students are proposed to master playing the piano, string instruments, woodwind instruments and brass instruments.

The uniqueness of the system of the instrumentalists training within the master's program is provided by a combination of individual and group trainings, and the major focus on individual form of training guarantees mastery of musical performance in special musical instrument, instrumental ensemble and instrumental improvisation classes.

The instrumentalists master's training ensures continuity in preserving the heritage of outstanding Ukrainian musicians-teachers. After all, the professional experience of the performer-instrumentalist, who brings elements of novelty into practice, is formed with a focus on what has already been achieved in historical development.

The innovative curriculum combines high-level instrumental, methodological, musicological and managerial training with the practical skills needed to succeed as a soloist, ensemble/orchestra artist and teacher.
